

# IEEE BIBM 2015 Call for Workshop Papers and Posters

2015 IEEE International Conference on Bioinformatics and Biomedicine (BIBM15)

<http://cci.drexel.edu/ieeebibm/bibm2015/>

Nov 9-12, 2015, Washington DC, USA

The IEEE BIBM has established itself as the premier conference in bioinformatics and biomedicine, The IEE BIBM 2015 received 341 research papers. If you miss the submission deadline, there are still other chances for you to submit your research work to the IEEE BIBM 2015 workshops and posters.

- (1) **15 Workshops** (Most of the workshop paper submission deadline are early September)

## No. Workshop Name

- 1 [2015 Workshop on Health Informatics and Data Science \(HIDS\)](#)
- 2 [2015 International Workshop on Biomedical and Health Informatics](#)
- 3 Data mining in translational biomedical informatics
- 4 [COMputational Methods for Analyzing Metagenomics Data](#)
- 5 Big data analytics for Medical Knowledge
- 6 Computational Regulatory Genomics and Metagenomics
- 7 Inaugural International Workshop on Biological Network Driven Analysis
- 8 The 2015 Computational Structural Bioinformatics Workshop
- 9 Biomedical Visual Search and Deep Learning
- 10 Data mining from genomic variants and its application to genome-wide analysis
- 11 Electronic health record: implementation, data mining, security and user acceptance

- 12 High Performance Bioinformatics and Biomedicine (HiBB)
- 13 High Performance Computing for Big Data Computational Biology
- 14 Computational Methods for Protein Sequence Annotation
- 15 [Second International Workshop on the Role for Quantified Self for Personal Healthcare](#)
- 16 The 2th International Workshop on High Performance Computing in Bioinformatics
- 17 The 6th Integrative Data Analysis in Systems Biology (IDASB 2015).
- 18 Machine learning in decision making for biomedical applications
- 19 Doctoral Candidate Research Symposium
- 20 International Workshop on Biomolecular Interaction Network Analysis and Interactomics  
Nonnegative Matrix Factorization and Tensor
- 21 Decomposition Techniques for High-Throughput Biological Data Analysis
- 22 Semantic Data Analytics and Bioinformatics
- 23 The Sixth International Workshop on Information Technology for Chinese Medicine

(2) **Poster (Submission deadline: Sept 25, 2015)**

Poster abstracts are limited to one page, must be camera-ready, and must follow the same formatting requirements as the main papers

**Online Submission:**
